

DESCRIPTION

PRODUCT COVERED:

USR, CNR Component Miscellaneous Lampholders, Cat. Nos. Series 04U, 09U, 20U, 21U, 24U, 26U, 27U, 28U, 31U, 33U, 35U, 41U, 42U, 43U, 51U, 53U, with additional suffix numbers.

GENERAL CHARACTER AND USE:

The devices covered by this Report are pilot lights employing nonrenewable neon or tungsten filament lamps or LED and are intended for use in appliances and similar equipment where the acceptability of the combination in the end use is determined by Underwriters Laboratories Inc. The suffix number indicates type of lamp, termination, lens color and electrical and temperature ratings. See Ill. 1 for suffix number information, and Ill. 1A for code system.

ENGINEERING CONSIDERATIONS (NOT FOR UL REPRESENTATIVE USE):

USR indicates investigation to United States Standard UL 496.

CNR indicates investigation to Canadian Standard CSA C22.2 No. 43.

Conditions of Acceptability - In the end use application, the following shall be determined.

1. Suitability of mounting means.

2. Use temperature shall not exceed **temperature** ratings.

Temperature

rating is marked on the device. See resuming table in next page 1-1
